शब्दरूप प्रकरणम्

दिनांक

संस्कृत भाषा में तीन लिंग होते हैं—पुल्लिंग, स्त्रीलिंग, नपुंसकलिंग। वर्णों के सार्थक योग से शब्द बनते हैं। शब्द दो प्रकार के होते हैं—अजंत तथा हलंत। सर्वनाम शब्दों के रूप भी तीनों लिंगों में चलते हैं। अस्मद् और युष्मद् के रूप दोनों लिंगों में समान होते हैं।

1. उचित रूपेण रिक्तस्थानानि पूरयत (उचित रूप से रिक्त स्थानों की पूर्ति कीजिए)—

	एकवचन	द्विवचन	बहुवचन
(i)	साधुभ्याम्	साधुभिः
(ii)	पितरि	पितृषु
(iii)	मुनिभ्याम्	मुनिभ्यः
(iv)	साधोः	साधुभ्याम्

2. सर्वनामशब्दानाम् रूपाणि पूरयत (सर्वनाम शब्दों के रूप पूरे कीजिए)—

	एकवचन	द्विवचन	बहुवचन
(i)	तस्मै	ताभ्याम्
(ii)	इमे	इमाः
(iii)	आवाभ्याम्	अस्मभ्यम्
(iv)	त्वत्	युवाभ्याम्

3. निर्देशानुसारं रूपाणि लिखत (निर्देश के अनुसार रूप लिखिए)—

1. महत् शब्द तृतीया विभक्ति
2. लता शब्द षष्ठी विभक्ति
3. वधू शब्द चतुर्थी विभक्ति
4. भानु शब्द सप्तमी विभक्ति
5. वारि शब्द पंचमी विभक्ति

Project : Make a project on the topic " Disaster Management".

Make a poster on A3 sheet on any one Disaster and Write about that disaster as project .(4-5 pages)

Computer

Q1 What is the purpose of a database?

Q2 In a spreadsheet, what is a cell where a formula is entered called?

Q3 What is the basic building block of a computer program?

Q4 What is the use of creating a form?

Q5 How is your database management system easy to learn?

Q6 Write down the steps to delete a field in datasheet view.

Q7 Describe the different data types commonly used in databases and give examples of each.

Q8 Explain the concept of an algorithm and its importance in programming.

Q9 Fill in the Blanks

1. A collection of interrelated tables storing data is called a/an _____.

2. In spreadsheets, we use _____ to perform calculations on data.

3. A _____ DBMS stores data in the form of a table.

4. The repetition of same data at different places is known as _____.

5. A structured collection of data stored and exist electronically is known as _____.

6.The _____ data type is used to add unique sequential number

7.The _____ data type is used to enter web links or pages from the internet in the database.

8. The process of writing instructions for a computer to follow is called _____.

Q10 Project

a) Create a simple database in database management software (DBMS) to store information about books in a library (e.g., title, author, ISBN)

b) Design a spreadsheet in a spreadsheet program to calculate the average marks of students in a class for different subjects.

Q11 Do the assignment from holidays homework assignment book from 1A to 3B.

Network and Data Communication

DATE :

1. Fill in the blanks.

- (a) _____ allows to link together number of computers over a very large geographical area.
- (b) The best example of WAN is _____.
- (c) The transmission channels can be _____ or _____.
- (d) The wireless channels can be _____ and _____.
- (e) _____ topology is most commonly used.

2. Match the Column.

Column A

- (a) Network interface card
- (b) Topology
- (c) Twisted pair cables
- (d) Fibre optic cables
- (e) Modem
- (f) Coaxial cable

Column B

- 1. UTP and STP
- 2. Free from noise and interference
- 3. Stands for modulator-demodulator
- 4. Like a TV cable wire
- 5. Physical arrangement of components
- 6. Known as network adapter

3. Write the full form of each of the following :

- (a) NIC _____
- (b) TCP _____
- (c) HTTP _____
- (d) LAN _____
- (e) SMTP _____
- (f) WAN _____

Teacher's Signature :

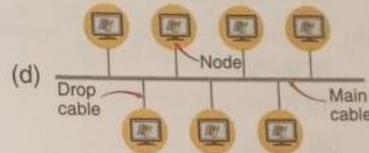

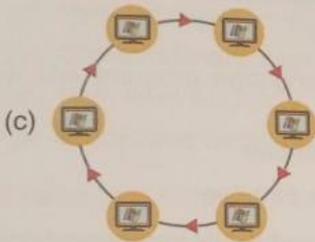

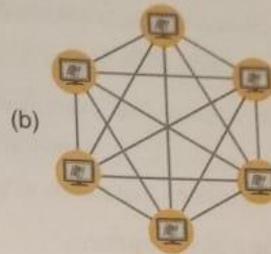

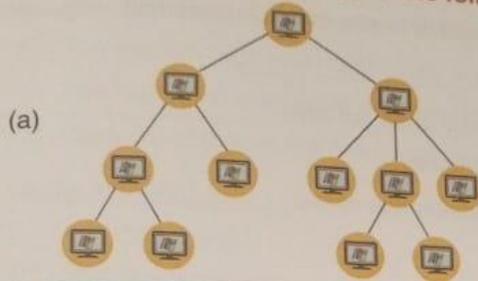

WORKSHEET 1B

Network and Data Communication

DATE :

1. Identify the types of topology in the following diagrams.

2. Write 'T' for True and 'F' for False against each statement.

- (a) In star topology, the central connection point is hub/switch.
- (b) The information on network is divided into small data that has serial number.
- (c) A higher bandwidth capacity means a lower speed of transfer of data.

3. Tick (✓) the correct option :

- (a) The main powerful computer that manages the resources is known as
 - (i) Hub
 - (ii) Workstation
 - (iii) Server
 - (iv) Clients
- (b) Which of the following cable is like a TV cable wire ?
 - (i) Twisted pair
 - (ii) Coaxial
 - (iii) Fibre optic
 - (iv) None of these

Teacher's Signature :

WORKSHEET 2A

Computer Programming Concepts

DATE :

1. Fill in the blanks.

- (a) _____ are used instead of binary codes in assembly language.
- (b) The language of 0s and 1s is called _____.
- (c) While writing the computer programs all the _____ needs to be followed.
- (d) The instructions that needs to be translated is called _____.

2. Tick (✓) the correct option :

- (a) Which of the following converts the source code into intermediate code line-by-line?
 - (i) Compiler
 - (ii) Translator
 - (iii) Interpreter
 - (iv) RAD
- (b) Which of the following converts the assembly language program into machine language ?
 - (i) Keyboard
 - (ii) Assembler
 - (iii) Plotter
 - (iv) None of these
- (c) Which of the following is directly executed by CPU and easily understandable?
 - (i) High level
 - (ii) Machine language
 - (iii) Assembly language
 - (iv) Interpreter

3. Differentiate between compiler and interpreter.

Compiler	Interpreter

WORKSHEET 2B

Computer Programming Concepts

DATE :

1. Write 'T' for True and 'F' for False against each statement.

- (a) Very high level languages are developed to increase the productivity.
- (b) The modern high level languages are FORTRAN, COBOL etc.
- (c) The high level languages are non-procedural.
- (d) Compiler compiles the programs line-by-line.

2. Match the Column.

Column A

- (a) Machine language
- (b) Assembly language
- (c) Very high level language
- (d) Object-oriented language
- (e) High level language
- (f) Procedural language

Column B

- 1. SQL and CSP
- 2. Java and JavaScript
- 3. FORTRAN, COBOL and C++
- 4. Mnemonic codes are used
- 5. Imperative language
- 6. Also known as binary language

3. Answer the following questions.

(a) What does SQL stand for ?

(b) Name the language that has both compiler and interpreter.

(c) What do you mean by object-oriented programming ?

(d) Define modular programming.

Java Statements

Major I

A. State T

1. Ah
2. Pt.
3. Ja
4. Cc

B. Answ

1. D
2. V
3. V

1. Tick (✓) the correct option :

- (a) Condition operators are (ii) ? and :
 (i) ! and = (iv) > and *
 (iii) < and >
- (b) Which of the following is a set of sequentially arranged statement ?
 (i) Program (ii) Assignment
 (iii) Loop (iv) Counter
- (c) Every java statement ends with a (ii) full stop
 (i) semicolon (iv) None of these
 (iii) colon
- (d) Which of the following statement is also called decision-making or conditional statement ?
 (i) Branching (ii) NOT
 (iii) IF (iv) none of these

2. Fill in the blanks.

- (a) The _____ statement helps to create a true block of statements.
- (b) User input are accepted using _____ line arguments.
- (c) _____ operators are known as ternary operators.
- (d) The break statement transfers the control to the _____ statement follow the switch statement.

C. Ma

3. Write 'T' for True and 'F' for False against each statement.

1. (a) Conditional operator is not used to make two way decisions.
2. (b) The default case is always required in the Switch selection structure.
3. (c) A conditional operator always replace an IF statement.
4. (d) Println () function prints the output in a new line.
5. (e) In the IF-Else statement, block followed by Else statement is called false block.

WORKSHEET 3B

Java Statements

DATE :

1. Match the Column.

Column A

- (a) Switch statement
- (b) Conditional operators
- (c) Command line arguments
- (d) Branching statement
- (e) Java statement ends with

Column B

- 1. Semicolon
- 2. To make choice from available alternatives
- 3. Ternary operator
- 4. An array of strings
- 5. Also called conditional statements

2. Give one word for each of the following :

(a) It is an argument that passed at the time of running the Java program.

(b) It evaluates the test expression.

(c) It is a branching statement which is used to handle multiple conditions.

3. Write a program to calculate the area of square in JAVA.

```
_____  
_____  
_____  
_____  
_____  
_____  
_____  
_____  
_____  
_____
```

SCIENCE

Answer the following questions in a separate notebook

Q:1 What are food crops?

Q:2 What are plantation crops?

Q:3 What is agriculture?

Q:4 Define the term poultry.

Q:5 What is nitrogen cycle?

Q:6 What are the differences between rabi and kharif crops?

Q:7 Draw the diagram of 'Nitrogen cycle'.

Q:8 What is green manure?

Q:9 What is animal husbandry?

Q:10 Which crops require very little water? Give examples.

Q:11 Name any ten metals.

Q:12 Define an alloy.

Q:13 Name any four nonmetals which are found in gaseous state.

Q:14 Make the activity series of some common metals.

Q:15 Mention three uses of nitrogen.

Q:16 What are the physical properties of nonmetals?

Q:17 Name a metal which is a liquid under ordinary conditions.

Q:18 Name four elements of halogen family.

Q:19 What are noble metals?

Q:20 Write four uses of aluminum.

Q:21 Define algal bloom.

Q:22 Define fermentation.

Q:23 Draw diagrams of different types of protozoans.

Q:24 What are antibiotics?

Q:25 Write three uses of fungi.

Q:26 Write three uses of bacteria.

Q:27 Name three diseases caused by bacteria.

Q:28 Write a note on food from animals.

Q:29 What are the three methods of food preservation ?

Q:30 Define food poisoning.

***PROJECT WORK ***

Prepare a project on MICROORGANISMS :FRIEND AND FOE

MATHS

(Do the holiday homework in separate notebook)

Linear Equations in One Variable -

1. Solve: $x + 5 = 12$

2. Solve: $2x = 14$

3. Solve: $x - 7 = 4$

4. Solve: $x / 3 = 6$

5. Solve: $3x + 2 = 11$

6. Solve: $4x - 5 = 3x + 2$

7. Solve: $5(x - 3) = 2(x + 4)$

8. Solve: $(2x - 3)/4 = 3$

9. Solve: $3x + 4 = 2x - 1$

10. Solve: $(5x + 1)/2 = (3x - 2)/3$

11. The sum of a number and 7 is 15. Find the number.

12. A number is 3 more than twice another number. If their sum is 21, find both numbers.

13. The perimeter of a rectangle is 50 cm. If the length is x cm and the breadth is $x - 5$ cm, find x .

14. Aman is 4 years older than his sister. The sum of their ages is 28. Find Aman's age.

15. A father is 3 times as old as his son. In 5 years, the father will be twice as old as his son. Find their present ages.

16. Solve: $(x - 2)/3 + (2x + 1)/4 = 5$

17. Solve: $(3x)/2 - (5x)/4 = 1$

18. Solve: $2(x + 3) - 3(x - 2) = 7$

19. The sum of three consecutive even numbers is 84. Find the numbers.

20. A piece of rope is cut into two parts. One part is twice the other. If the total length is 18 m, find the lengths of both parts.

PROJECT: (To be done on chart paper)

collect the information of total member of your family liking the different flavours of icecream and make a pie chart on it

(Example is given below)

The favourite flavours of ice-cream for the 100 children in a locality are given as follows. Draw the pie chart to represent the given information.

Flavours.	Student prefer Flavours
Vanilla	25
Strawberry	15
Chocolate	10
Kesar-Pista	30
Mango Zap	20
